

CTP REPORTS STRONG HALF YEAR RESULTS, 2021

Utrecht, 11 August 2021 - CTP N.V., CEE's largest logistics property owner and developer listed on Euronext Amsterdam (ticker symbol: CTPNV), today announces its results for the first half year of 2021. CTP reports strong half year results and is well on track to further accelerate its development, raising its GLA growth target to beyond 7.7 million m² by year-end 2021, up from 7.5 million m² as guidance at its IPO end of March 2021.

Highlights H1-2021

- On top of enjoying strong tailwinds for the logistics real estate sector, CTP further increased its leading market share by capturing nearly a third of all new leases to hold 25% market share (in terms of GLA) by the end of the first half 2021 in Czech Republic, Romania, Hungary and Slovakia.¹
- Solid increase in income-producing portfolio to 6.6 million m². Net rental income in the first half year increased by 17% to €160.3 million from €136.5 million in the first half of 2020.
- Net valuation result from development activities increased to €146.0 million. No revaluation took place on CTP's income-producing portfolio during H1. Company specific adjusted EPRA Earnings increased to €0.25 per share.
- Interim dividend 2021 of €0.17 per share; pay-out ratio of 75%.
- Independent ESG rating by Sustainalytics Inc., ranking CTP in top 1.5% of companies worldwide; carbon neutrality of operations being verified by external agency.

Highlights Q2-2021

- Total land bank increased to 14.7 million m² at the end of Q2 from 13.0 million m² at the end of Q1 2021, thereby extending potential for profitable development pipeline.
- Yield-on-Cost increased to 11.8% compared to 11.5% in the first quarter 2021, on a development pipeline of 1.2 million m², despite increased construction costs and shortages in building materials.
- Value of Owned Assets stands at €6.4 billion at the end of the second quarter 2021, an increase of 5.3% compared to €6.1 billion as of 31 March 2021.²
- Finalised €1 billion Green Bond issue (two tranches) to refinance banking facility. Cost of Debt decreased to 1.22% as of 30 June 2021 from 1.6% as of 31 March 2021.

Outlook FY 2021

- IPO proceeds to be further used to accelerate land bank acquisition, fund profitable pipeline development, and acquire income-producing properties at attractive conditions.
- GLA target revised upwards to over 7.7 million m² for year-end 2021 (including 390,000 m2 assets under management for Deka).
- Outlook Company specific adjusted EPRA EPS for full year 2021 expected to be around €0.50 (2020: €0.44).

² No revaluation of investment properties was undertaken for H1 2021

Remon Vos, CEO: "Our performance over the first half of 2021 shows the quality of our business parks, attracting high-quality tenants that drive our profitable growth. Demand in our markets continues to grow, and our CTParks are well positioned to benefit from the trends of e-commerce, supply chain optimization, last mile delivery and demand for parks designed to minimize environmental impact. Vacancy is at historic lows, and our strong customer relations has led to high retention rates with our annualised rent roll increasing 4% quarter-on-quarter to €380 million. Our execution power is strong: we successfully started as a listed company, significantly accelerated the expansion of our landbank, launched operations in the Netherlands and built up capacity in Austria, Bulgaria and Poland. We strive to expand our market leading position in the CEE countries, while we bring our park makers vision to new markets where we see great potential for further growth."

Richard Wilkinson, CFO: *"We continue to see strong growth in profitability driven by rental growth, while the profitability of new developments continues to exceed the planned target of >10% Y-o-C. We made an excellent profit of* \in 188.3 *million while not having any revaluation of our investment portfolio, which underlines the strength of our business model. Our financial position is very strong, having realised the IPO, finalised the move to the unsecured funding platform and increased our liquidity position. IPO proceeds are sensibly used to accelerate our expansion, with the acquisition of income-producing assets in Romania and Hungary to solidify our market leading positions in these markets. We have grown of our land bank to 14.7 million m² and are on track to exceed the previous target of 7.5 million m² GLA target per year-end, driving rental income growth in the years to come."*

Operational performance

Annualised rental income³ in the second quarter increased to &380 million from &366 million as of 31 March 2021, a quarter-on-quarter increase of 4%. Our total leasing activity increased to 613,000 m² in the first half of 2021, up 30% from the first half of 2020. The pre-let rate for properties under construction and delivery in 2021 increased to 73%, compared to 70% on 31 March 2021.

CTP's Yield-on-Cost for these developments stayed strong at 11.8% (Q1 2021: 11.5%), well above the target of >10%. The occupancy rate increased to 95% from 94% in Q1 2020, with a strong retention rate and WAULT at 6.5 year per 30 June 2021, up from 6.4 year per 31 March 2021. Company specific Adjusted EPRA Earnings increased by 8.7% Y-o-Y to ≤ 0.25 per share.

CTP continues to gain market share in Czech Republic, Romania, Hungary and Slovakia, as we captured 30.8% of all take up in the second quarter of 2021.⁴ By doing so we continue to increase our leading market share in GLA terms, now holding approximately 25% of the total market share in these markets.⁴ The outlook for the CEE-region remains very positive, as we see the logistics sector enjoying strong tailwinds and European manufacturers continue to shift light-industrial activities to Eastern Europe, benefiting from its low-cost production opportunities.

In the second quarter, we have grown to 444 FTE's from 422 in the last quarter. In September 2021, CTP will open its new offices in Amsterdam, to where it will move its statutory seat, and will continue to expand with new hires for senior positions at group level.

Landbank

We have accelerated the acquisition of new land and extended our total landbank to 14.7 million m² per 30 June 2021 (9.6 million m² owned land bank and 5.1 million square metres under exclusive option), from 13 million m² in the first quarter of 2021 (9.3 million m² owned land bank and 3.7 million square metres under exclusive option). The growth acceleration underscores our ability to secure attractive land transactions across markets. On the basis of a build ratio of 45%, our current landbank offers a development potential beyond 6.6 million m² GLA, or more than doubling our existing GLA. In the second quarter of 2021 we announced two successful new landbank acquisitions in Bulgaria and began construction on a 18,600 m² new land plot near Warsaw, Poland. We are expanding our position as a pan-European park maker, with the construction of a 23,000 m² facility near Rotterdam the Netherlands, the acquisition of 580,000 m² land in the Dutch logistics hub Waalwijk, and landbank acquisitions around Vienna, Austria, totalling 360,000 m².

Balance sheet and liquidity

In June, we issued an additional €1 billion bond (two tranches, €500 million each), from which we prepaid our €1.4 billion Czech portfolio bank loans. With this, we concluded the migration to the largely unsecured platform, within nine months from our debut issuance. The new bond issues have resulted in a reduction of Cost of Debt to 1.22% at quarter-end, down from 1.6% as of 31 March 2021. CTP's liquidity position improved further by extending our committed Revolving Credit Facility (RCF) from €100 million to €400 million. The IPO has reinforced our strong balance sheet, enabling us to accelerate new acquisitions at attractive conditions and to reduce our secured debt position. Our total debt was €3.0 billion as of 30 June 2021, of which 83% is unsecured as of 30 June 2021.

Our Net Loan-to-Value increased slightly to 40% (38% as of 31 March 2021), and the Interest Cover Ratio stands at 5.1x.

ESG update

CTP is on track to make its business operations net carbon neutral by the end of 2021 and to positively impact the communities we operate in.

These efforts are well recognized by the investor community, and 86% of CTP's total bond issues have been placed with investors that apply green criteria in their investment decisions. In May 2021, Sustainalytics Inc., an independent global provider of ESG and corporate governance research and ratings, conducted an assessment of CTP's ESG risk score and ranked CTP among the top 1.5% of companies globally assigning an 11.0 ESG "Low Risk" Score.

Furthermore, CTP has engaged an independent agency to validate CTP's carbon footprint and offsetting potential of both CTP's forest preservation efforts and its installed solar parks in the CEE region. CTP owns and manages 5.6 million m² of forest, in line with our commitment to maintain a 1:1 ratio to our built portfolio. CTP continues to look for opportunities to add forests to preserve, plant trees and instigate reforestation.

Interim dividend

CTP announces an interim dividend of €0.17 per share, being 75% of company specific adjusted EPRA earnings. Shareholders can opt for dividend in cash or shares.

2021 Guidance

Business activity in our markets is expected to remain at a high level. The logistics sector enjoys strong structural tailwinds from e-commerce and supply chain optimisation trends. In addition, Eastern Europe stays a very attractive region as low-cost production location benefiting from modern infrastructure.

In the first half of 2021, long-term interest rates started to become more volatile, and we expect this to continue in the second half. In addition, rising inflation might have an impact on the economic development in the second half of the year. We continue to strengthen our market leadership in our core region (Czech Republic, Slovakia, Hungary and Romania), to expand our geographical footprint in Bulgaria and Poland and we have started operations in Western Europe. Our "Parkmakers" vision fits with the increasing demand for integrated business and logistics parks with a strong focus on sustainability. We will continue our pan European profitable growth journey.

We are well on track to reach our growth target set at the time of our IPO. We expect our asset base to be in excess of 7.7 million m² by year-end, including 390,000 m² in assets under management for DEKA. Towards the end of 2023 we expect to add at least another 2.5 million m², exceeding our IPO target of 10 million m² by then. As of 30 June 2021, CTP already has a strong visible pipeline for delivery in 2022.
