CTPark Modřice

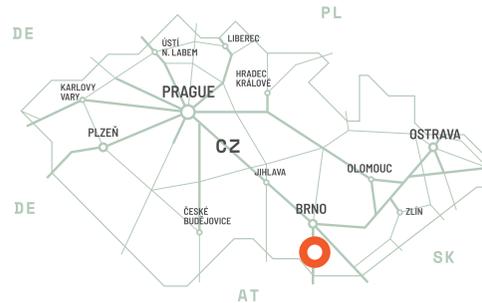

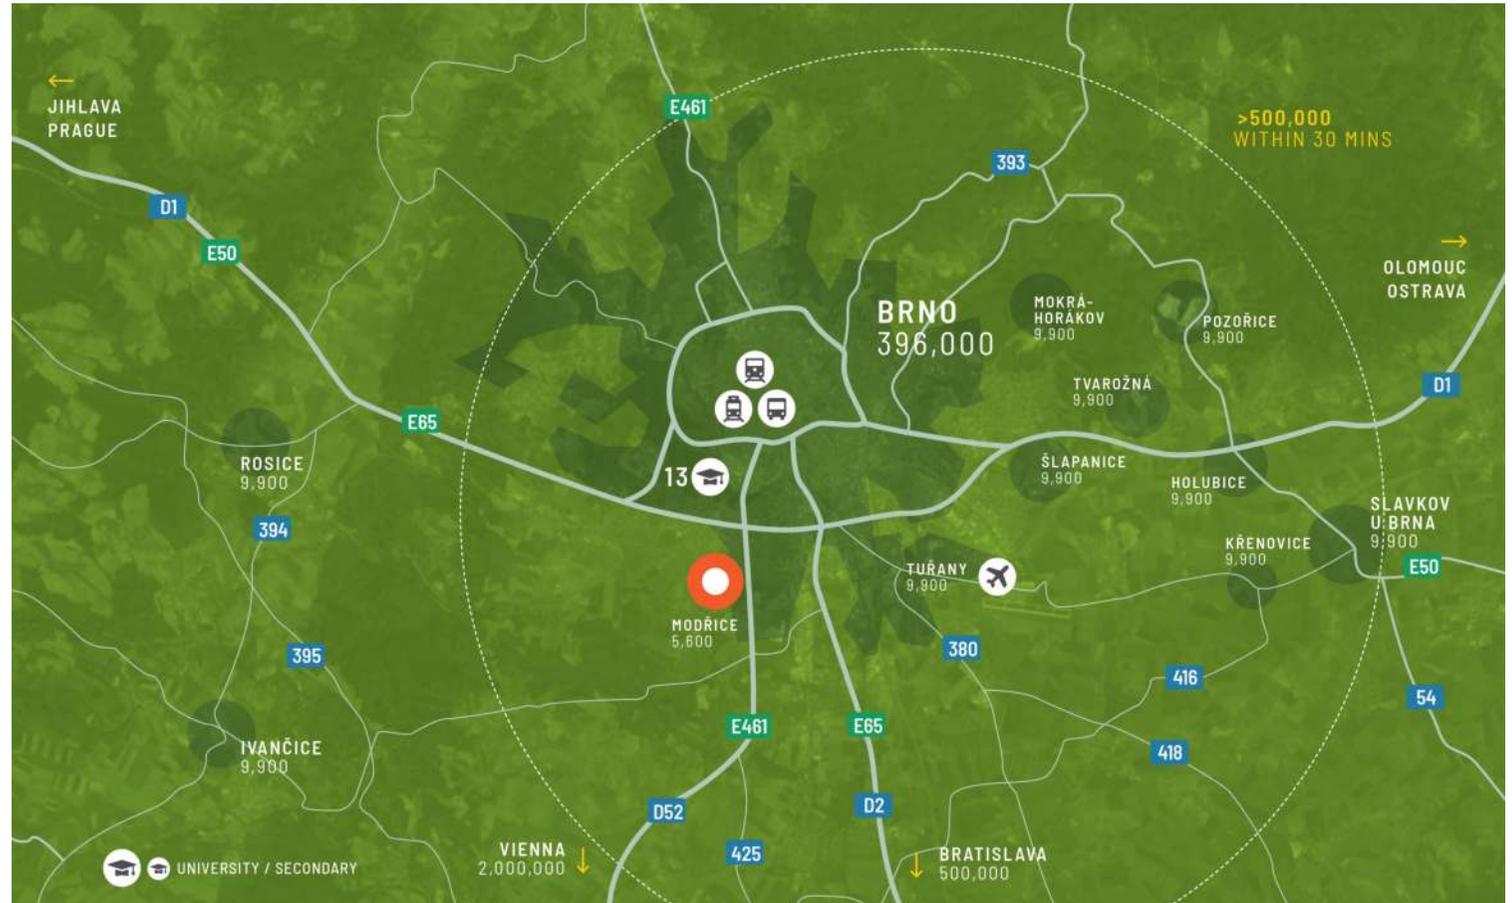

CZ

## Established industrial base in the heart of South Moravia

Brno and its surrounding region represent one of the strongest industrial and technology hubs in Central Europe. South Moravia combines a long-standing manufacturing tradition with a rapidly growing high-tech and R&D sector. The region is home to global companies in automotive, engineering, electronics and advanced technologies. Brno is the second-largest city in the Czech Republic and a major university centre with over 65,000 students, particularly in technical, IT and engineering disciplines. Competitive labour costs, strong technical education and a dynamic innovation ecosystem make the region highly attractive for manufacturing and logistics operations.

- ▶ Regional population: over 1.2 million (South Moravian Region)
- ▶ More than 65,000 university students in Brno
- ▶ Strong automotive, engineering and technology cluster
- ▶ Excellent quality of life supporting talent attraction and retention
